Pool Products

Pool Wellness Equipments

01

Cold Plunge

A small, specialized tub or pool filled with icy water—typically maintained between 39°F and 45°F (4°C to 7°C). **Submerge your body up to the neck for just 2 to 5 minutes.** It is used as a powerful **wellness and recovery tool** to instantly reduce muscle inflammation, boost circulation, trigger a rush of endorphins, and accelerate athletic recovery.

02

Elecro Evolution 2

Highly favored in premium swimming pool installations, hot **plunges**, and luxury **spas** because it offers a compact, ultra-reliable electric heating solution that delivers **100%** efficiency throughout its product life. The heating elements inside the flow tube are configured in a unique loop system that forces water to flow through in a vortex

03

Coates Heater

Coates is a globally recognized, heavy-duty industrial brand widely used in premium residential **spas**, commercial **hot plunges**, and **therapy pools** due to its robust, box-style engineering and high heating efficiency. Rated at **5.5 kW**, making it exceptionally fast and efficient at heating smaller bodies of water like luxury spas, hot plunges, or swim-spa segments.

Pool Products

Filters

Pool Filters

Displays a professional-grade top-mount sand filter featuring a premium fiberglass-wound structural tank finish. This type of high-capacity filtration unit is the standard choice for luxury residential swimming pools, commercial hotel setups, and large-scale water features due to its robust durability and straightforward maintenance protocols.

Pool Products

Water Heater & Chiller

01

5-Star Heat Pump (China)

Device features a sleek, matte-black architectural design with a **wave-patterned fan grille**. It is a highly sought-after climate control solution for luxury residential swimming pools, commercial wellness centers, and **high-end hot plunges** due to its exceptional energy efficiency and **whisper-quiet operation**.

02

Elsavo Heat Pump (Germany)

This device features a vertical, **top-discharge architectural design**. It is a highly efficient climate control solution for luxury residential pools, hotels, and wellness centers where space optimization and high-capacity thermal regulation are required. This is an **air-source inverter system**, the **InverPac Turbo** runs on intelligent micro-variable speeds to maintain steady water temperatures with low energy consumption.

Five star Pump

Laswim Pump

Ncole Pump

Leo Pump

Lx Pump

Pool Pumps

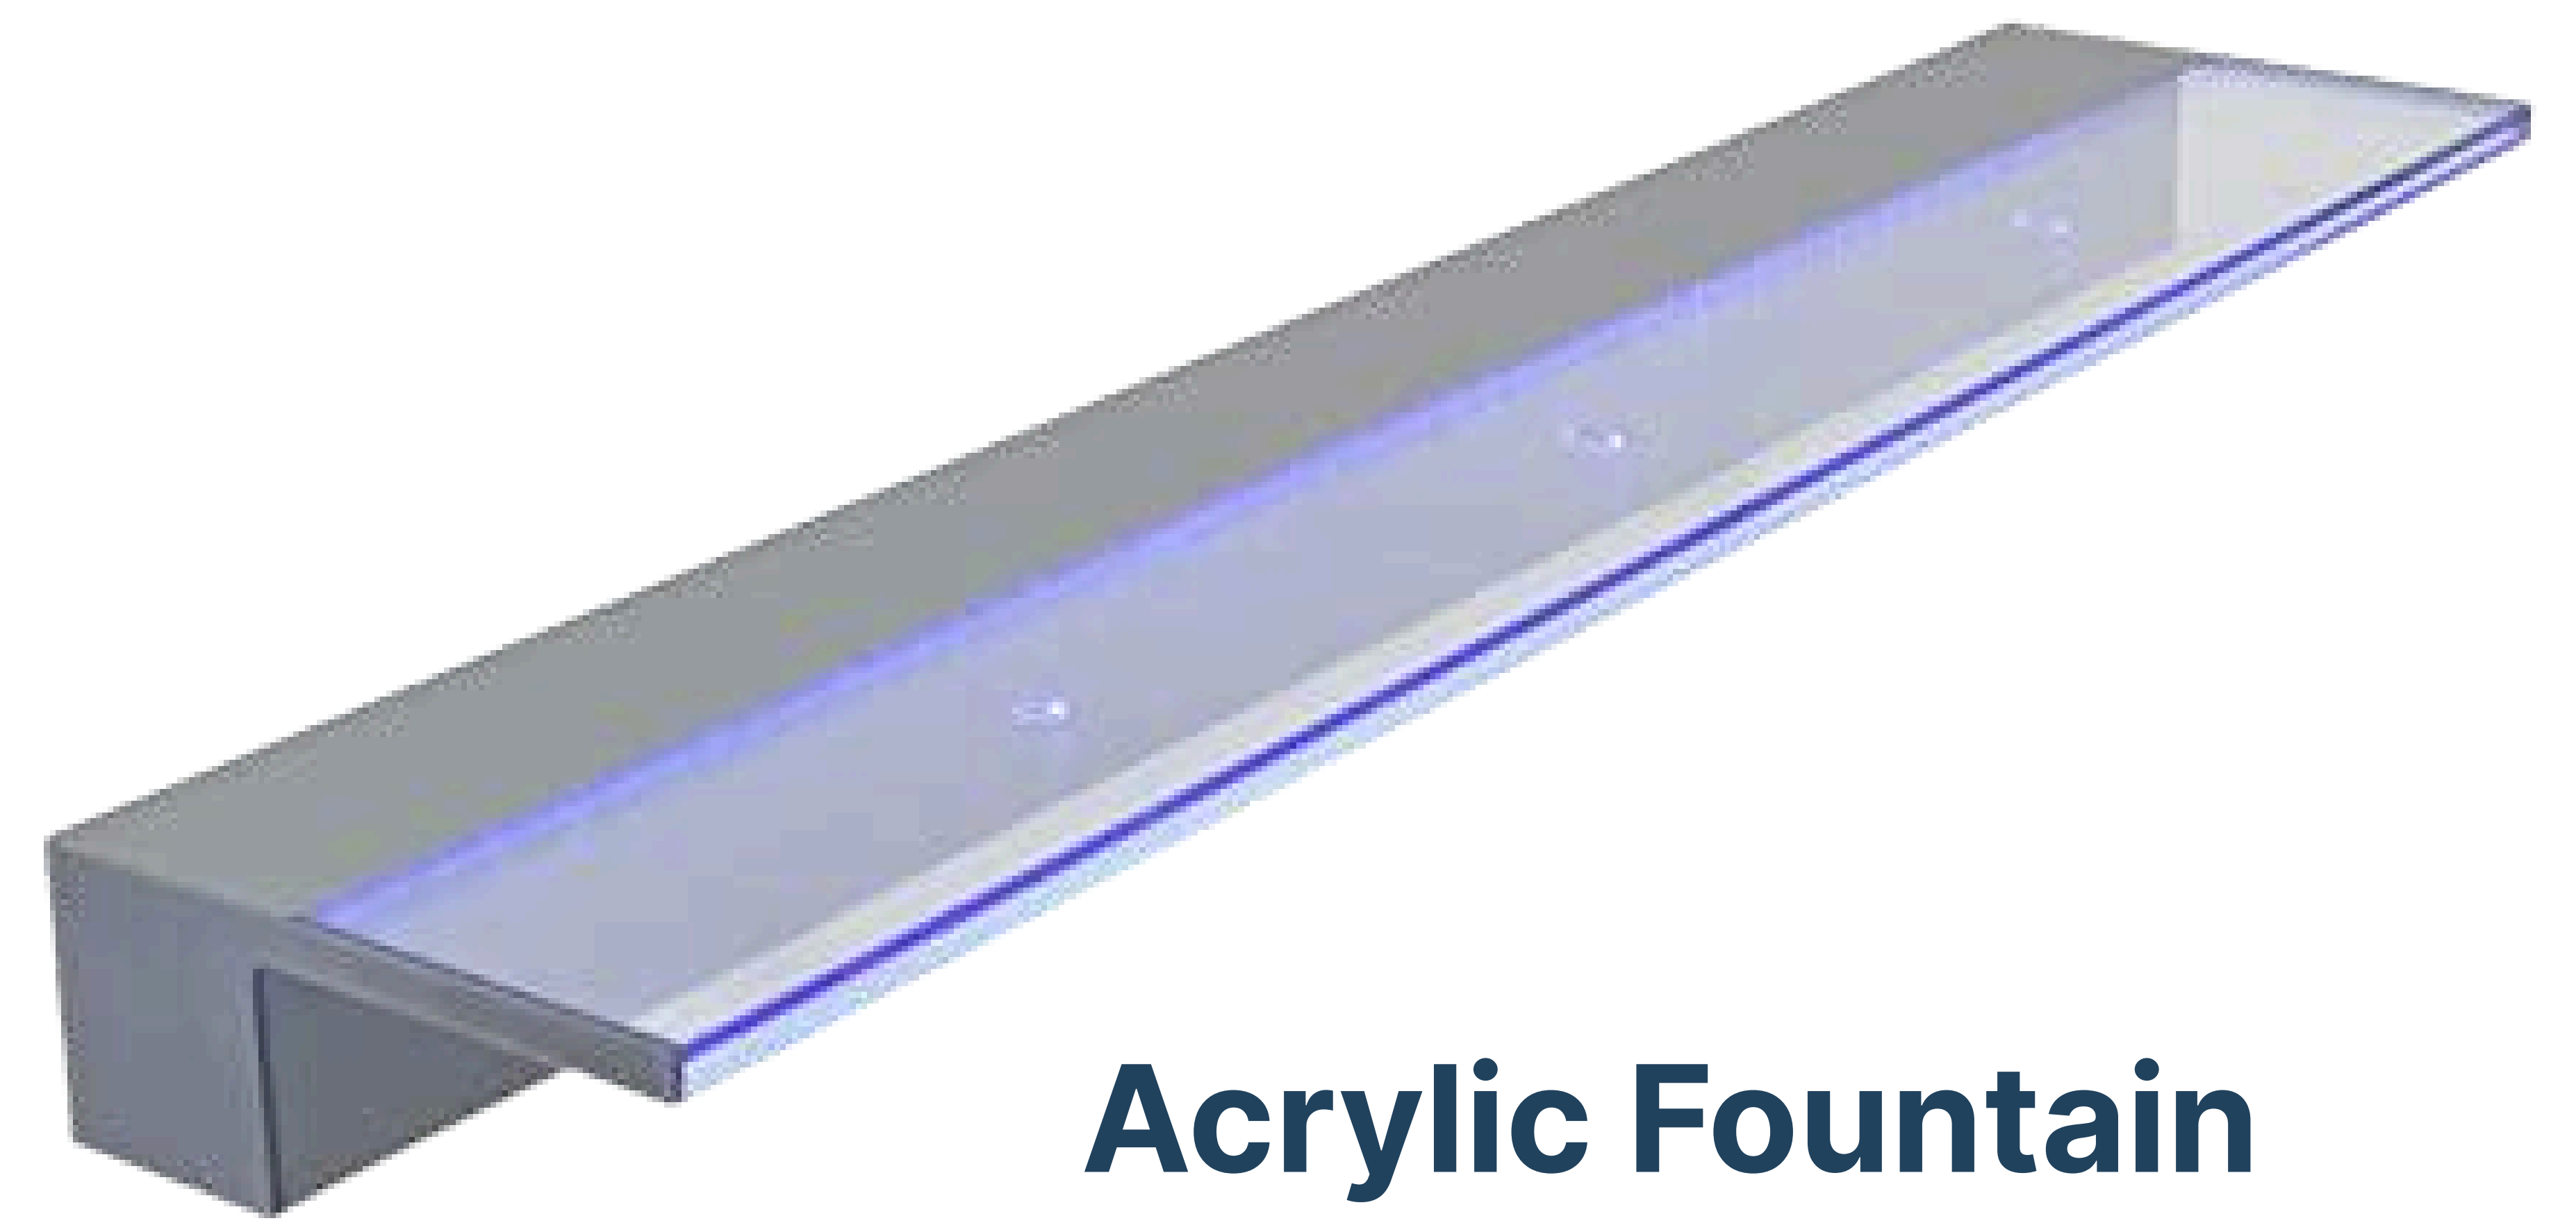

In luxury residential and commercial pool infrastructure, the pump acts as the "heart" of the circulation system, pulling water from the pool's suctions and driving it through filters, heaters, and sanitization loops. A heavy-duty, commercial-grade self-priming centrifugal pump. It features an extra-large, integrated pre-filter strainer basket housing on the left side to trap large leaves and organic debris before they can clog the internal impeller.

Why Choose

**POOL
CAPTAIN**
A NAME OF EXPERTS

OVER 35+ Years

- ✓ Premium Quality Materials & Equipment
- ✓ Expert Team of Swimming Pool Specialists
- ✓ Reliable Maintenance & After-Sales Support
- ✓ Quality, Safety, and Customer Satisfaction

OUR Core Values

01

Quality Excellence

Delivering high-standard workmanship and premium finishing in every project.

02

Customer Satisfaction

Building long-term relationships through trust, transparency, and reliable service.

03

Innovation

Using modern technology and advanced pool solutions for better performance and design.

04

Integrity

Honest work, professional ethics, and commitment to every promise.

05

Safety & Reliability

Ensuring safe construction practices and dependable pool systems.

Testimonials

Land Scape **Construction Partner**

Reliable company for spa and pool construction. Their technical team is highly skilled in modern pool systems.

Khoj Allana , Hub **Commercial Project Client**

We hired them for a commercial swimming pool project. Excellent engineering, equipment supply, and after-service support.

Ahmed Raza **Residential Client - Karachi**

Pool Captain built our swimming pool with excellent quality. Their maintenance service is also very professional and timely.

Sarah Khan **Homeowner - DHA Karachi**

Very professional team for pool construction and repair. They handled everything from filtration system to finishing perfectly.
